

10" STD Poly Pleated Water Filter Cartridge (10" x 2½")

SPEC SHEET

PRODUCT CODE: As below.

KEY FEATURES

- Pleated Filter Cartridges are washable, reusable and durable. The Micron ratings are used as a prefilter to remove very fine debris and suspended matter in water supplies. They are washable, reusable in certain applications.
- Suits SS and plastic 10" standard Filter housings.
- Pleated construction means they have increased dirt holding capacity and low pressure drop.
- Material: PP 1 Micron or polyester for other Micron ratings. End caps PU.
- Max temp 38°C
- Flow rate relative to pressure drop.
- Recommended maximum pressure drop 2 bar (Caution: higher pressure drops can cause the filters to implode)
- Suitable for most water types.

Micron	Code
5 Micron	FC-PP-10-2.5-05M
20 Micron	FC-PP-10-2.5-20M
50 Micron	FC-PP-10-2.5-50M
